Síntesis conceptual

La feminidad en el cristianismo se basa en reglas dogmáticas que la mujer debe cumplir, es como estar bajo una sombra de sumisión que no te deja decidir, en donde se te dice que hacer, como ser y actuar, por otro lado la espiritualidad da paso a explorarse, escuchar la voz interna, cuestionar y razonar, es ahí, en el cuestionarse que aparece el encontrarse, donde lo femenino trasciende y la mujer reconoce su poder y vigor dejando a un lado la supeditación.
