

# Feria Sostenible

María Camila Guerrero Jaramillo  
Diseño Cultural  
2021

MMYD

# Enunciado Del Proyecto Módulo 3

## Diseño de eventos, escenografías y espectáculos

Operar el nuevo espacio para eventos de ciudad del rio por seis meses, diseñando espacios comerciales que sean autosostenibles economicamente y que cumplan correctamente con los ODS. Dichos espacios deben respetar las medidas del predio y tener una capacidad para 1000 personas.

Se debe diseñar el espacio comercial exterior, interior y la sala de eventos y espectáculo.

# Concepto

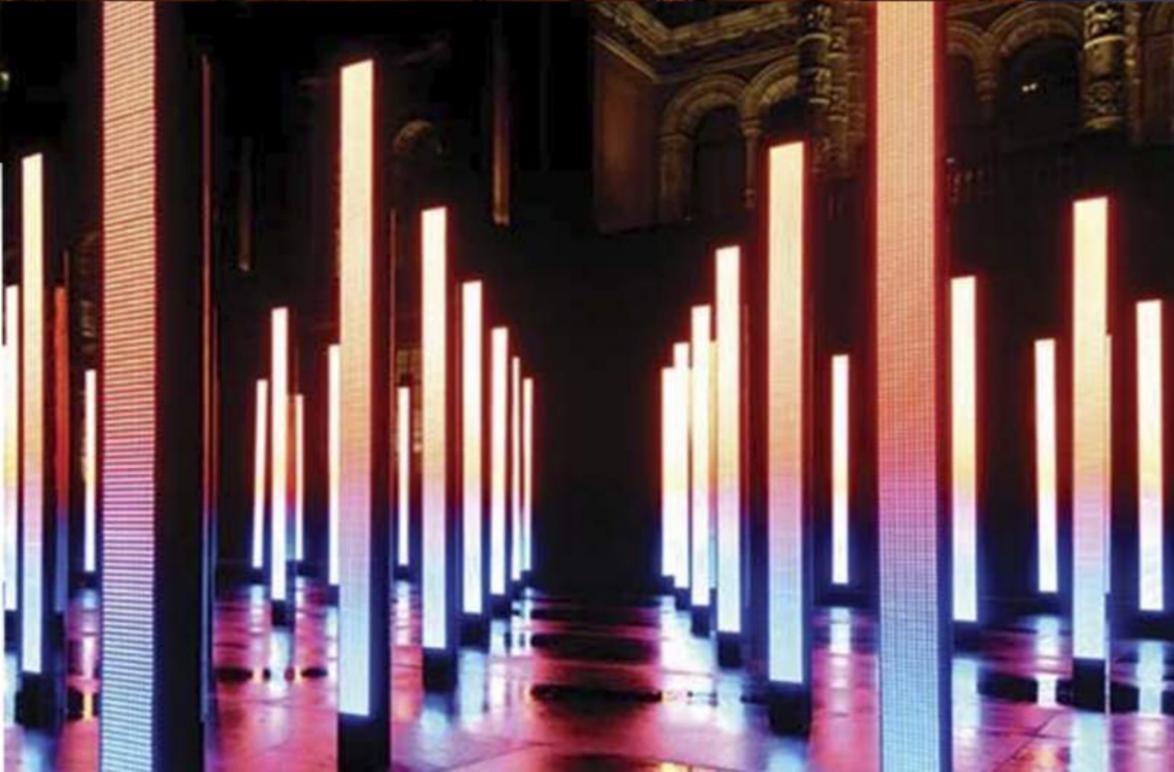

## Shoot It Feria de moda y diseño

Capturar cada uno de los momentos, será el foco del evento, desde photobooths, pasarelas, moda, hasta restaurantes, comida y espacios instagrameables.

“Liberando el potencial de la moda, el diseño y la gastronomía sostenible”

# Objetivos de Desarrollo Sostenible

Se van a generar empleos a personas que lo necesiten sin importar su género o condición sexual.

Para la construcción de la feria se utilizarán materiales reciclados, que no dañen el medio ambiente y que una vez se desmonte el evento, puedan ser utilizados para otras construcciones.

Se usarán paneles solares y todas las alianzas que se hagan con las marcas que participen en la pasarela y restaurantes, deben ser únicamente con emprendimientos de moda sostenible con el medio ambiente, sin maltrato animal y de comida vegana.

Comida y bebida gratis para todos los trabajadores del evento.

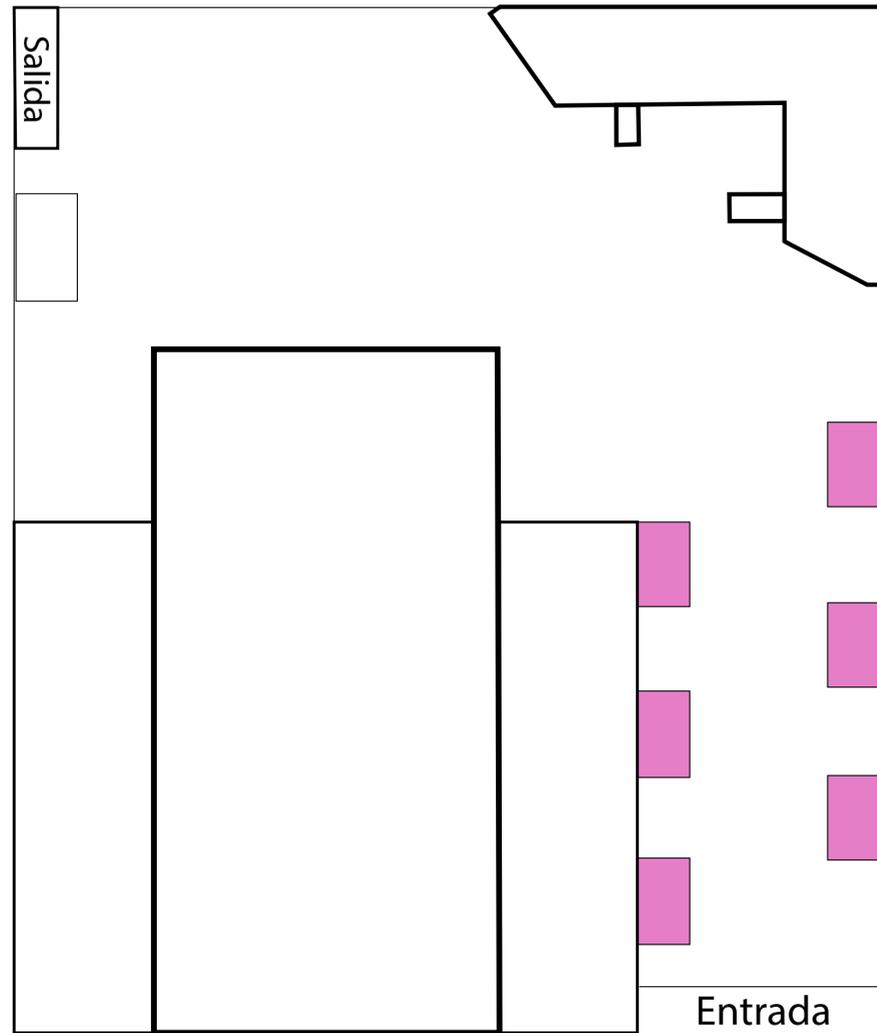

Habrá una ambulancia y un paramédico con equipos de primeros auxilios disponibles para atender cualquier accidente que pueda ocurrir o persona que sufra algún imprevisto de salud.

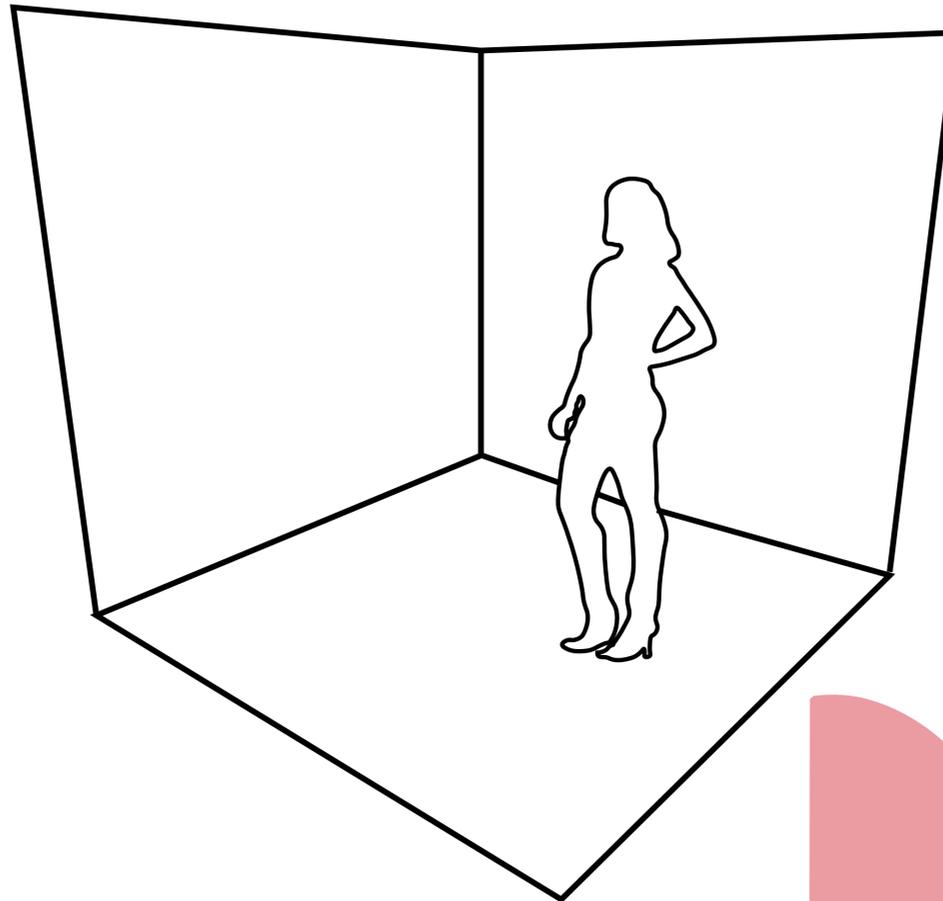

Folletos educativos acerca de las propiedades venéficas de los alimentos veganos.

# Experiencia en el Espacio

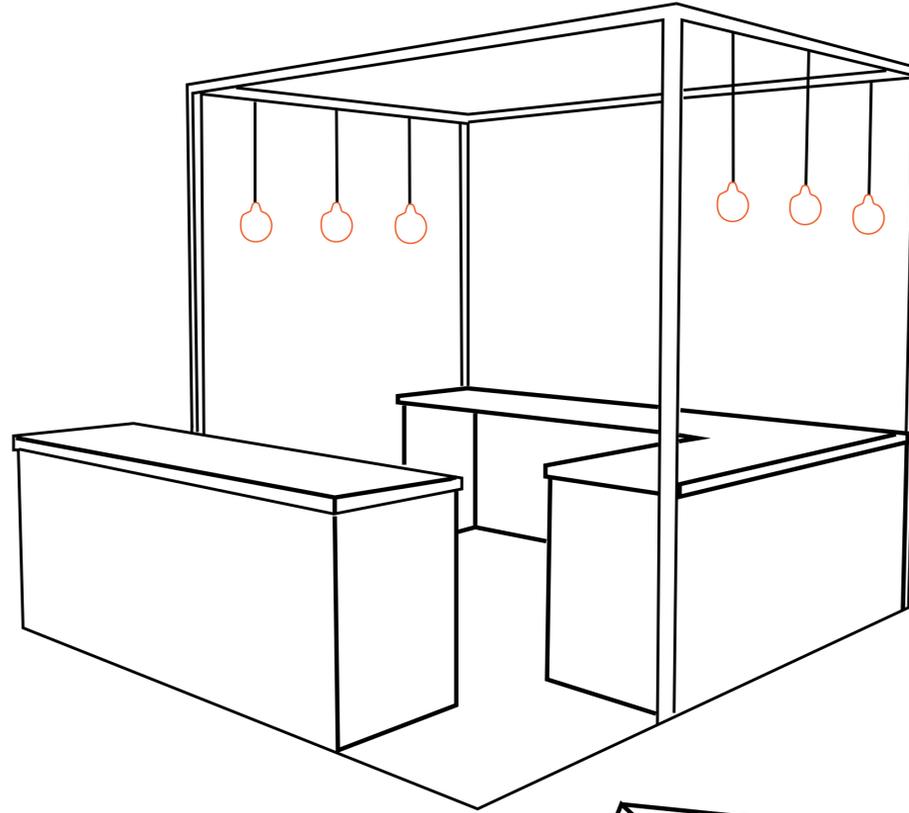

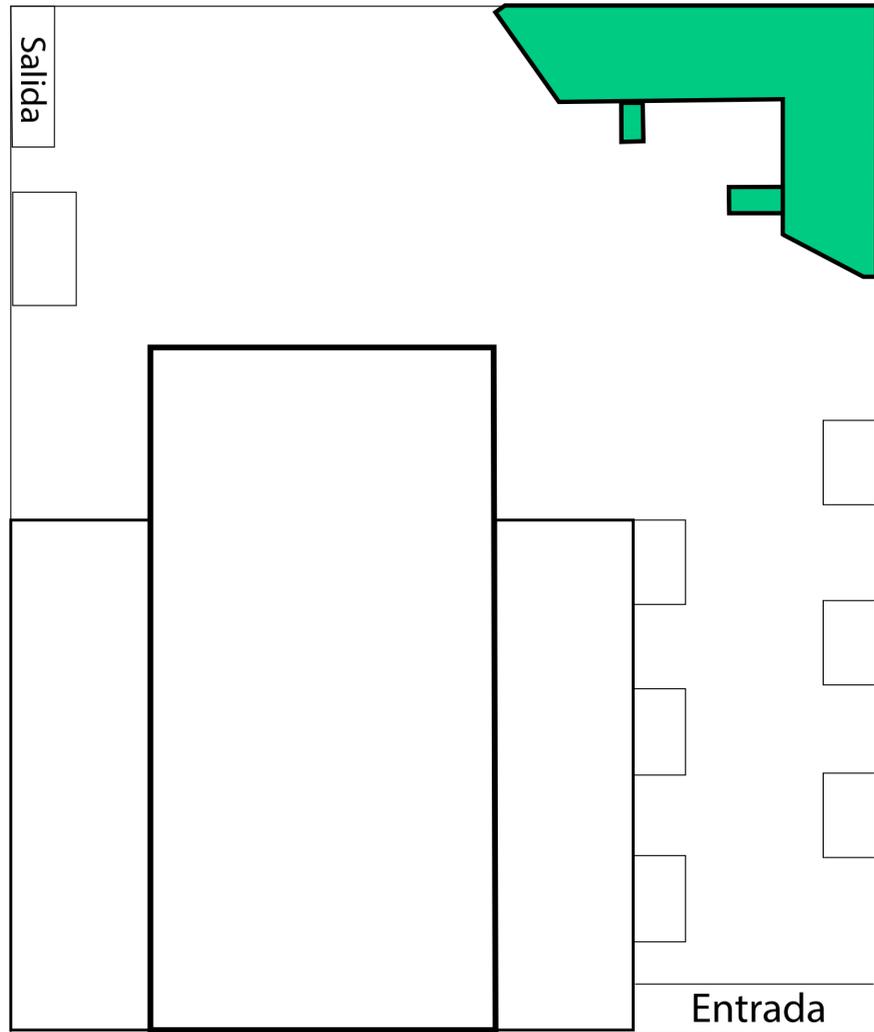

## Photobooths instagramables

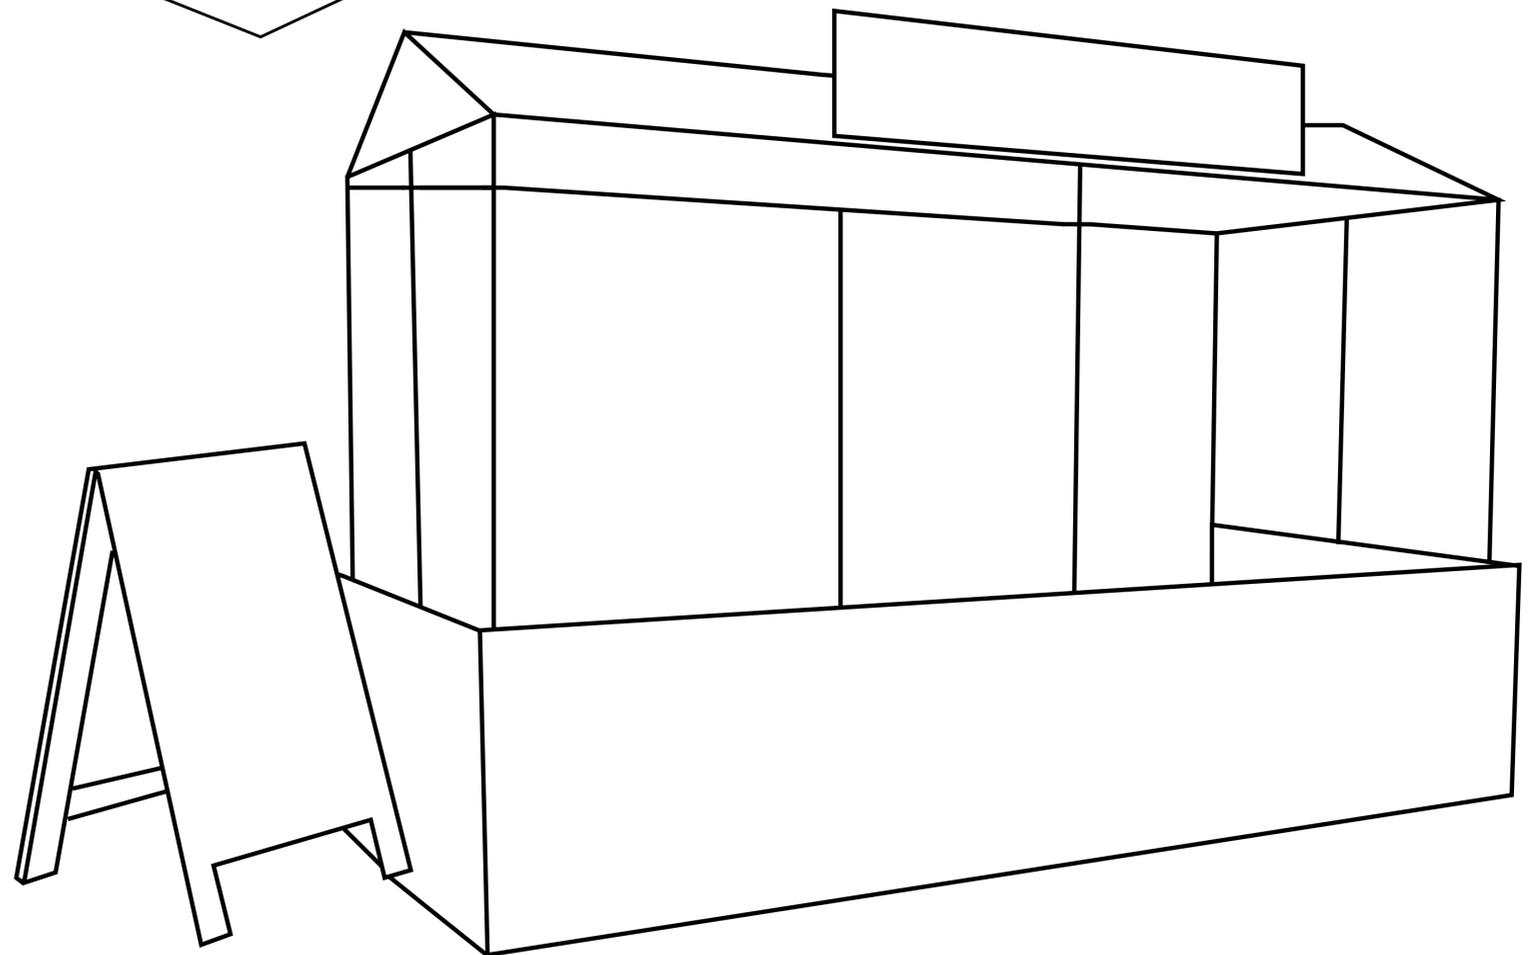

Poder capturar  
diferentes momentos marcará la  
diferencia.
